

# CRC-VEU-WH / CRC-VEU-BK

White/Black Volume Remote Control Wall Plate in EU Enclosure Format for CA, CM, CMA and CPA Series

## 1. Introduction

### Welcome!

Thank you for purchasing the CRC-VEU Remote Volume Control panel. In conjunction with the Lab.Gruppen CA, CM, CMA and CPA Series of commercial amplifiers, the CRC-VEU provides easy control over volume. The CRC-VEU will fit in most standard-depth installation enclosures and will blend with any décor.

## 2. Control

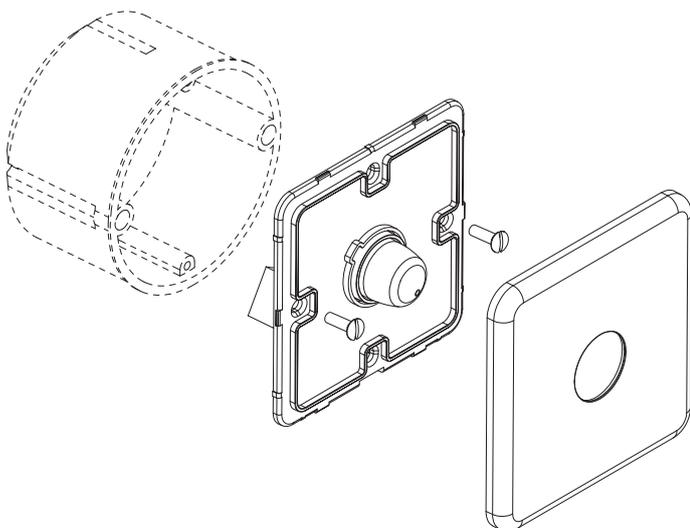

CRC-VEU features a single volume knob with an illuminated LED ring.

## 3. LED Ring Illumination Configuration

The LED ring illumination can be configured with a switch on the PCB. ON and OFF positions marked on the PCB and the switch can be found between the PCB and the bottom plate.

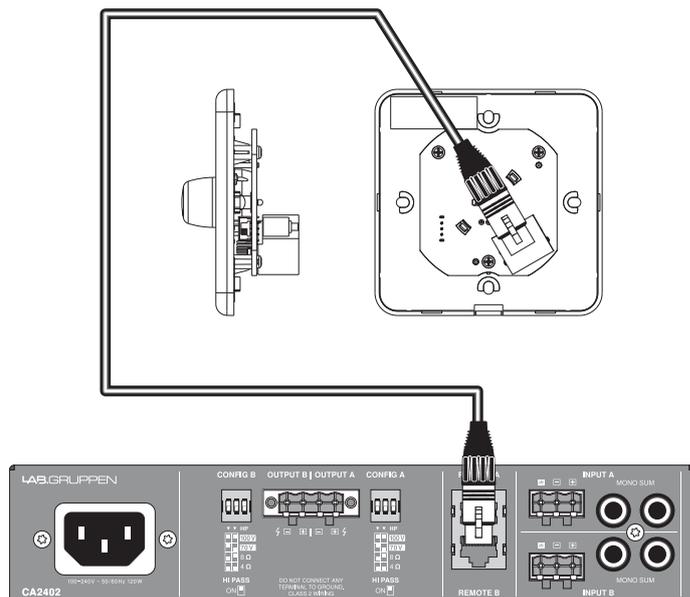

## 4. Assembly and Mounting

The CRC-VEU fastens into the installation enclosure with two screws beneath the front plate. Remove the front panel, and fasten the main unit into the enclosure with the mounting screws from the enclosure. When the unit is securely fastened, replace the front panel.

## 5. Wiring and Installation

Wire the CRC-VEU to any Remote port on a CA, CM, CMA and CPA product to control the volume of the channel associated with the Remote port. With custom cabling, a single remote can also be paralleled to the other channels remote port on a two-channel device.

RJ-45 Pin	Color	Potentiometer	Description
1	White / orange	Fixed end	VCC 10 V
2	Orange	Variable / wiper	Volume control
8	Brown	Fixed end	Ground

## 6. Operation

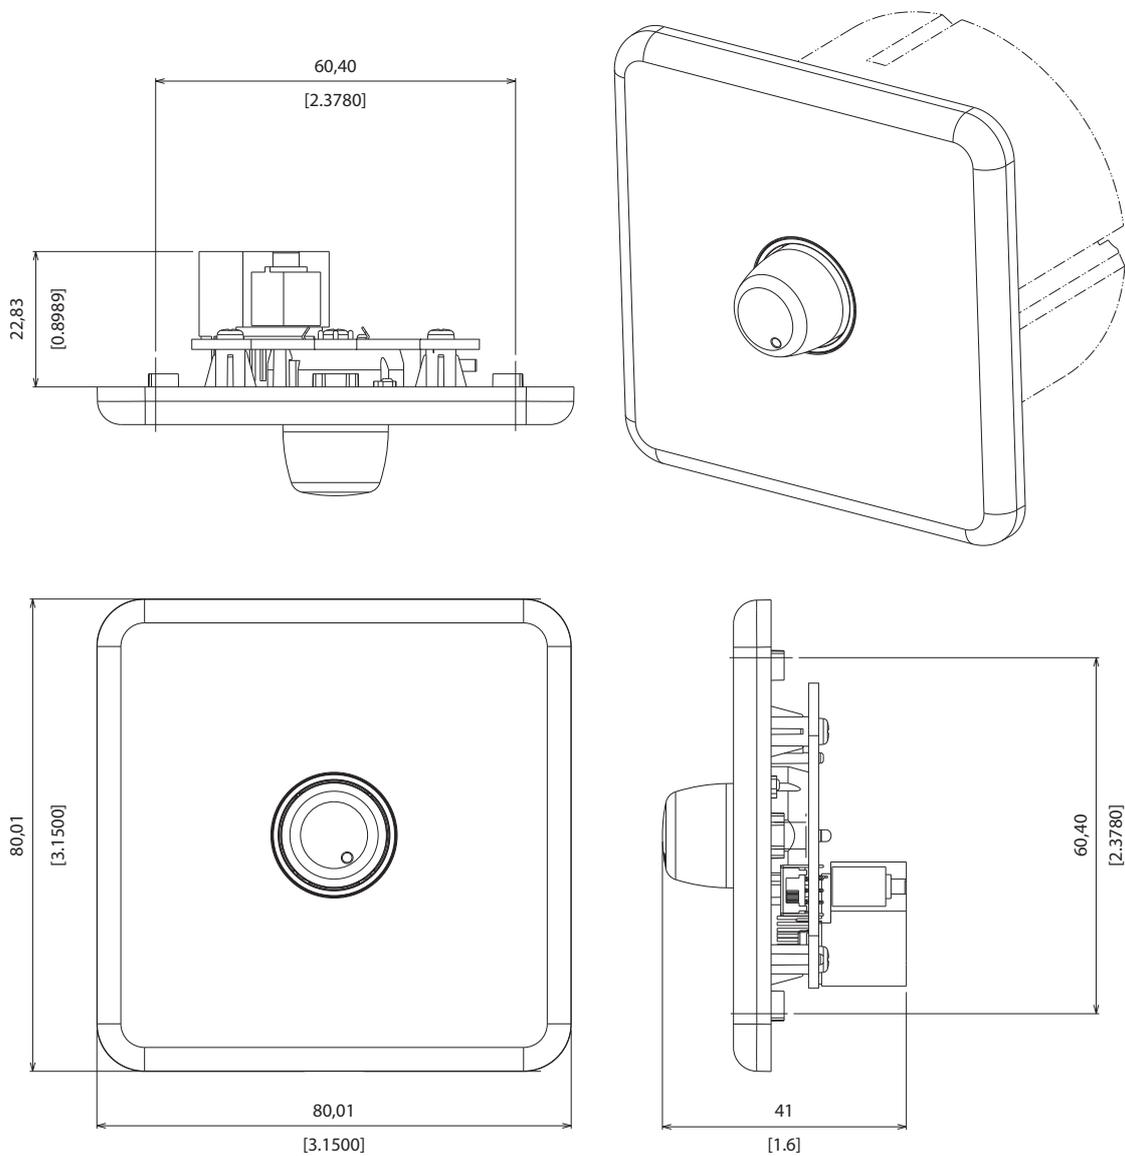

The CRC-VEU volume control is Attenuation only, i.e., the volume control can only be used to reduce the volume. The CRC-VEU remote volume control and the amplifier's master volume control are in series and both always active.

Typical configuration includes the following steps:

1. Turn the CRC-VEU volume knob to maximum (fully clockwise).
2. Adjust the amplifier's master volume control to the loudest setting you expect will ever be needed.
3. Turn the CRC-VEU volume knob down to the desired listening level.

By following this configuration method, the listening level set by the CRC-VEU remote volume control can never exceed the maximum level set on the amplifier's master volume.

## 7. Dimensions

## 8. Specification

Volume	1 x rotary control
Connector	1 x RJ45
Cable	Cat5/6
Cable length	Up to 305 m (1000 ft)
Potentiometer	20 kΩ linear
Dimensions (H x W x D)	80 x 80 x 41 mm (3.1 x 3.1 x 1.6")
Weight	0.05 kg (0.11 lbs)
