

MGN SERIES MICRO-GOOSENECKS

OVERVIEW:

The Micro-Gooseneck (MGN) series consists of 3 extension pieces for the Micros™ series. Each model is a lightweight tube with a mini-XLRf connector on the top and a standard XLRm connector on the base. There are flexible goosenecks at each end of the tube. There is balanced cable inside the tube, with pin 2 hot in respect to pin 3.

The MGN series is designed to work with any of the Micros™ series; M1245A, M1250, M1255, M1280.

MGN18, MGN12, MGN6

MODEL VARIATIONS:

There are three models: MGN-6 is 6 inches (152mm) in length, MGN-12 is 12 inches (304mm) in length, MGN-18 is 18 in (456mm) in length.

ASSEMBLY INSTRUCTIONS:

To assemble, place the mini-XLRm of the Micros™ series element against the mini-XLRf end of the MGN tube. Line up the pins and push gently until the microphone click/locks into place.

The XLRm base can fit into *any* XLRf connector, or into the XLRf port on the ATS10 weighted stand. (See Below)

[Product shown is an MGN6; assembly process is the same for each model.]

MGN6, MGN12, MGN18
