Quickly Learn.

There's no need to have any experience with lighting. With a large 9.7-inch touch screen, helpful prompts and videos, and a smart phone-like interface, you can learn the console quickly, design a light show, save it and play it again and again.

Quickly Program.

The console has easy-to-understand buttons and faders, simple colour selection and intensity control tools, a large touch screen with zooming and scrolling at your fingertips, as well as a simple cue/chase system for playback. The QuickQ interface easily leads you through setup, programming and operation of the console.

The console has free downloadable offline programming software available for Mac and Windows that includes the fully rendered MagicVis visualiser. You can program your show using the QuickQ Designer software on your computer, save it onto a flash drive and load it onto the QuickQ console.

Quickly Connect.

The console can automatically detect and patch RDM compliant fixtures and features in-built WIFI capabilities enabling remote connection to the free QuickQ app available on iOS, Andoid and Windows tablets and phones. Easily connect the app by simply scanning the QR code on the console display.

QuickQ features in-built wifi capabilities enabling remote connection to the free QuickQ Remote app available on iOS, Android and Windows tablets and phones. Begin to plug and play by simply scanning the QR code on the console display.

Quickly See The Quality.

QuickQ is powered by the world renowned ChamSys operating system and cue engine, and comes with the support you've come to expect from an industry leader. The console uses ChamSys' extensive and continuously updated personality library with over 30,000 personalities.

Quickly Progress.

With core ChamSys philosophies at the heart of the product, QuickQ consoles are show compatible with our more advanced MagicQ line of consoles, enabling users to progress freely throughout the ChamSys range.
