ADJ RFC

The **ADJ RFC** has many differnet functions and gives you complete control of your compatiable ADJ LED fixtures.

Always check your fixture's instruction manual to see what features the ADJ RFC can control. To control the your desired fixture you must aim the controller at the front of the fixture and be no more the 30 feet away. Note: The remote cannot be used when the fixtures are connected to a DMX controller.

BLACKOUT - Pressing this button will blackout the fixture.
