

VSA SMART RC

SMARTPHONE REMOTE CONTROL FOR VSA COLUMN SPEAKERS

DESCRIPTION

VSA SMART RC is a remote control for VSA column speakers that works in conjunction with a dedicated application for smartphones running on iOS and Android OS. The remote control works via infrared communication, so it is necessary to point it properly to the speaker to be adjusted. Functions management is performed by the application. The kit includes the USB / RS485 adapter with RJ45 connection cable to setup the speaker through PC software.

FEATURES

- Setting of the focus and of the listening area to be covered
- Selection of the tilt angle and virtual dispersion
- Volume control and mute function
- Selection of equalization
- Phase rotation
- Input selection
- Delay setting
