XS WIRELESS 1 / XS WIRELESS 2

## In 300 words.

Raise Your Voice.

Building on Sennheiser's heritage and extensive experience developing wireless systems for professionals and upcoming artists alike, two new product lines have been developed for those who want to go wireless, as well as for those who are ready for the next step.

XS WIRELESS 1 has been designed for first-time and casual wireless users who appreciate simplicity, fast set-up, and no complications. With intuitive icon-based controls and one-touch synchronization, XS WIRELESS 1 is wireless the easy way.

XS WIRELESS 2 is for wireless users who need greater control and flexibility. This upgrade offers tour-proof metal receiver housings, True Diversity reception, and feature-rich LCD displays. XS WIRELESS 2 succeeds the original XS WIRELESS line, and is fully tunable in a wide range of UHF frequencies.

Both XS WIRELESS lines are excellent for live sound and feature Sennheiser's renowned evolution microphone capsules. XS WIRELESS 1 comes with either the e 825 or industry standard e 835 cardioid dynamic capsule. XS WIRELESS 2 features the e835 capsule, as well as the e 865 condenser capsule to capture every detail of the performance. A new member in the XS WIRELESS family: the XSW 1-908 Brass Set features the state-of-the-art e 908 instrument microphone.

All XS WIRELESS sets are intercompatible and easy to use. XS WIRELESS is the perfect match between Sennheiser's expertise in audio and contemporary customer demands for hassle-free operation and a sleek product design.

As a singer, presenter, moderator, entertainer or instrumentalist you can count on the reliable transmission and excellent live sound of XS WIRELESS.

All you need to do is RAISE YOUR VOICE.
